

California World Language Project, L.A. STARS

Seminars on Theory, Activities, Resources and Strategies

Since our programs are authorized by the State and Federal Government, you may wish to use funds from Title I, (Disadvantaged Learners), Title II, Part A (Professional Development), or Title III (English Learners).

SEPTEMBER-DECEMBER WORLD LANGUAGE SEMINARS: FOCUS ON STATE AND COMMON CORE STANDARDS

NEW STANDARDS-BASED AND COMMON CORE INSTRUCTION FOR TEACHERS OF KOREAN AND KOREAN FOR KOREAN SPEAKERS

Program Content: Participants will learn to deliver a Common Core aligned and standards-based instructional program for students of Korean and Korean for Korean Speakers, specifically how to use technology to enhance a standards-based approach: locating authentic materials rich in language, culture and content, and using technology to make authentic materials accessible to students, to facilitate interpersonal communication and to support presentational communication. ***Participants must be familiar with the basic functions of the programs in Microsoft Office and bring a laptop with wireless capability.***

NEW STANDARDS-BASED AND COMMON CORE UNIT DESIGN FOR TEACHERS OF SPANISH SPEAKERS

Program Content: Participants will learn to design thematic units that may be used with Spanish speakers at a variety of levels and will link receptive and productive language development activities with global studies in history, current events, art, music and literature. ***Participants are encouraged to bring laptops/tablets with wireless capability so they can work collaboratively and share the materials they develop, and to create a Weebly or DropBox account and a Gmail address.***

ADVANCED COMMON CORE AND STANDARDS-BASED PRACTICES FOR WORLD LANGUAGE EDUCATORS

Program Content: Participants will learn to design standards-based materials using backward design and real-world objectives that are stage- and age-appropriate. They will locate authentic texts rich in language, culture and content and create culturally-authentic interpretive, interpersonal and presentational activities that require the use of *21st Century Skills* and *Common Core* Competencies. Participants will learn to teach the materials they create using pedagogies that reflect research and best practices.

ENHANCING COMMON CORE AND STANDARDS-BASED COMPETENCIES THROUGH TECHNOLOGY

Program Content: Participants will learn current technologies used to enhance world language instruction and support *Common Core* efforts. They will use technologies to locate and store authentic materials, make input comprehensible, effectively facilitate interpersonal communication, and support presentational communication. During each session, participants will practice new skills and develop lessons that incorporate common core elements. ***Participants must be familiar with the basic functions of the programs in Microsoft Office and bring a laptop with wireless capability.***

USING FILMS AND ONLINE TECHNOLOGIES TO ENHANCE COMMON CORE AND STANDARDS-BASED COMPETENCIES OF SPANISH SPEAKERS

Program Content: Participants will explore cross-cultural links between full length and short films and history, current events, art, music and literature and will examine procedures for developing *Common Core* and *Standards*-based competencies using film to enhance the curriculum and infuse it with authentic experiences of cultural merit. They will learn to use online technologies to support student interpretation of audio, video and written texts, participation in interpersonal communication, and creation of presentations and video products.

Location:	Occidental College, Los Angeles
Dates and Times:	PROGRAMS WILL BE OFFERED ON SATURDAYS <i>September 15, October 6, November 3, and December 1, 2018, 8:00 A.M. to 4:00 P.M.</i>
